

ICD-11 codes

BOTOX	
EJ20.0	Actinic elastosis. Inclusions. Solar elastosis, Rhytides, Nodular actinic elastosis with cysts or comedones, Colloid milium. (includes Dynamic lines)
EE40	Atrophy or degeneration of dermal or subcutaneous connective tissue
EJ20	Photoaging of the skin The changes in skin which can be attributed to chronic exposure to ultraviolet radiation and which are clinically manifest principally as actinic elastosis, wrinkles and dyspigmentation. Including: Sun damage due to chronic sun exposure
LA52	Facial asymmetry A condition caused by failure of the face to develop symmetrically during the antenatal period.
EE40.31	Age-related skin fragility
EE41	Abnormalities of dermal elastin
EE40.3	Skin fragility Fragility of the skin due principally to genetic or acquired abnormalities of dermal matrix proteins.
EE00.0	Localised hyperhidrosis
EE00.00	Palmoplantar hyperhidrosis Excessive sweating of palms and soles. This is usually bilateral. Palmar hyperhidrosis may be triggered by emotional stress but, in severe cases, can be continuous and cause major disability by inhibiting normal social interaction and interfering with everyday tasks such as writing, preparing food or handling papers. Plantar hyperhidrosis may accompany palmar hyperhidrosis but may occur independently.
EE00.01	Axillary hyperhidrosis Excessive axillary sweating, sometimes in response to emotional stress but often persistent and disabling.
FILLERS	
L90.0	Atrophy or degeneration of dermal or subcutaneous connective tissue
EE40.31	Age-related skin fragility including volume loss in face
EE41	Abnormalities of dermal elastin
EE40.3	Skin fragility Fragility of the skin due principally to genetic or acquired abnormalities of dermal matrix proteins.
9A06.6	Sunken Sulcus Deformity
9A06.5	Tear Trough Deformity
LA54	Microcheilia A condition caused by failure of the lips to develop correctly during the antenatal period. This condition is characterized by below normal lip size.
DA0E.00	Micrognathia Apparently reduced length and width of the mandible when viewed from the front but not from the side. This is a bundled term comprising shortening and narrowing of the mandible and chin.
FC00.0	Acquired deformity of nose
OTHERS	
EL70	Adverse reaction to dermal or deep fillers Any adverse event attributable to the use of injected fillers used for soft tissue augmentation.
EF02.3	Cellulite
MB28.9	Low self-esteem Low appraisal of one's self-worth
